DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

2. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to a method for manufacturing adhesive.

Group II, claim(s) 11, drawn to an adhesive.

Group III, claim(s) 12, drawn to an adhesive fabric.

3. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is either obvious over or anticipated by EP 328,301. Accordingly, the special technical feature linking the three inventions, dispersing a resin heated to no less than its softening point in an aqueous medium to obtain an aqueous dispersion does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
